

## Action Board

### Goals

- ✓ Secure Scholarships – Reduce financial stress and support my education.
- ✓ Good Living Arrangement – Find a comfortable and affordable place to stay.
- ✓ Become an RA – Gain leadership experience and free housing.
- ✓ Live Independently & Rise Up – Build self-sufficiency and personal growth.
- ✓ Excel in Studies & Coding – Master programming and succeed in coursework.
- ✓ Achieve Greatness – Push limits, take on challenges, and leave a mark.
- ✓ Travel to Nepal – Explore, reconnect with family and refresh my mind.

## Activities & Action Plan

### Academics & Study Focus

Maintain a high GPA (Set study hours & avoid distractions).

Improve time management (Use planners & study apps).

Develop effective study techniques (Pomodoro, active recall).

Form study groups (Collaborate with classmates).

Use campus resources (Tutoring, office hours, library).

### Coding & Tech Growth

Master key programming languages (Python, C++, Java, etc.).

Work on real-world projects (Develop apps, contribute to open-source).

Participate in hackathons & coding competitions.

Complete coding challenges (LeetCode, Codeforces, etc.).

Build a strong portfolio & LinkedIn presence.

### Scholarships & Financial Stability

Apply to at least 3 scholarships per month.

Maintain a strong personal statement & resume.

Seek recommendation letters from professors.

Track deadlines & submission dates.

### Good Living Arrangement

Explore campus & off-campus housing options.

Compare costs & amenities.

Create a monthly budget for rent, utilities, and expenses.

### Resident Assistant (RA) Position

Complete SAA 4100 course successfully.

Network with current RAs & learn about their experiences.

Develop leadership & conflict-resolution skills.

Prepare for the RA selection process & interviews.

### Living Independently & Rising Up

Learn essential life skills (cooking, budgeting, time management).

Find part-time job opportunities for financial stability.

Surround myself with ambitious and positive people.

Take responsibility for personal growth & mental well-being.

### Do Epic Things & Achieve Greatness

Take on challenging projects related to tech & leadership.

Join and lead student organizations (Coding clubs, leadership groups).

Step outside my comfort zone and take calculated risks.

Track achievements & set bigger goals every semester.

### Trip to Nepal & Travel

Save money specifically for travel.

Plan an itinerary for places to visit & things to do.

Arrange accommodations and tickets in advance.

Document the journey through journaling & photography.
