

QUANTUM COMPUTING

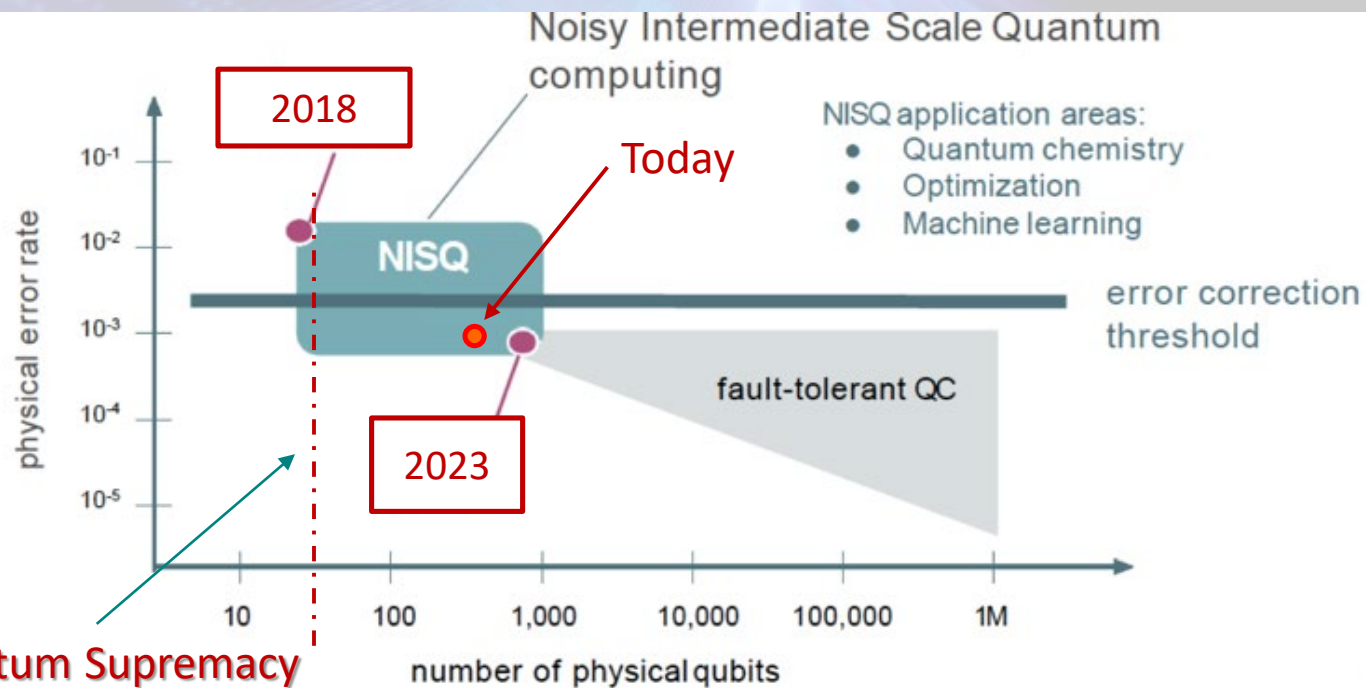

ITS TIME IS NOW (WK2-PT2)

Professor Nella Ludlow, PhD

Wright State University

Dayton, OH

NISQ AND Q SUPREMACY

"Quantum computing in the NISQ era and beyond" Preskill, 2018 <https://arxiv.org/abs/1801.00862>

NEW COURSE

CS6200 — INTRO TO QC

In Person Course
August 2022

39 Students

- Both Seniors &
- Grad Students

Late September

Nella Ludlow was invited to return to Wright State, where she received a master's in computer science, to teach a quantum computing course in the College of Engineering and Computer Science. (Photo by Erin Pence)

GOOGLE BREAKS QUANTUM SUPREMACY

Nature - 24 Oct 2019

Task that would take most powerful supercomputer 10,000 years
'completed by quantum machine in minutes'

📷 Sundar Pichai, pictured with the Sycamore Quantum processor, compared the feat to building the first rocket to reach space. Photograph: Reuters

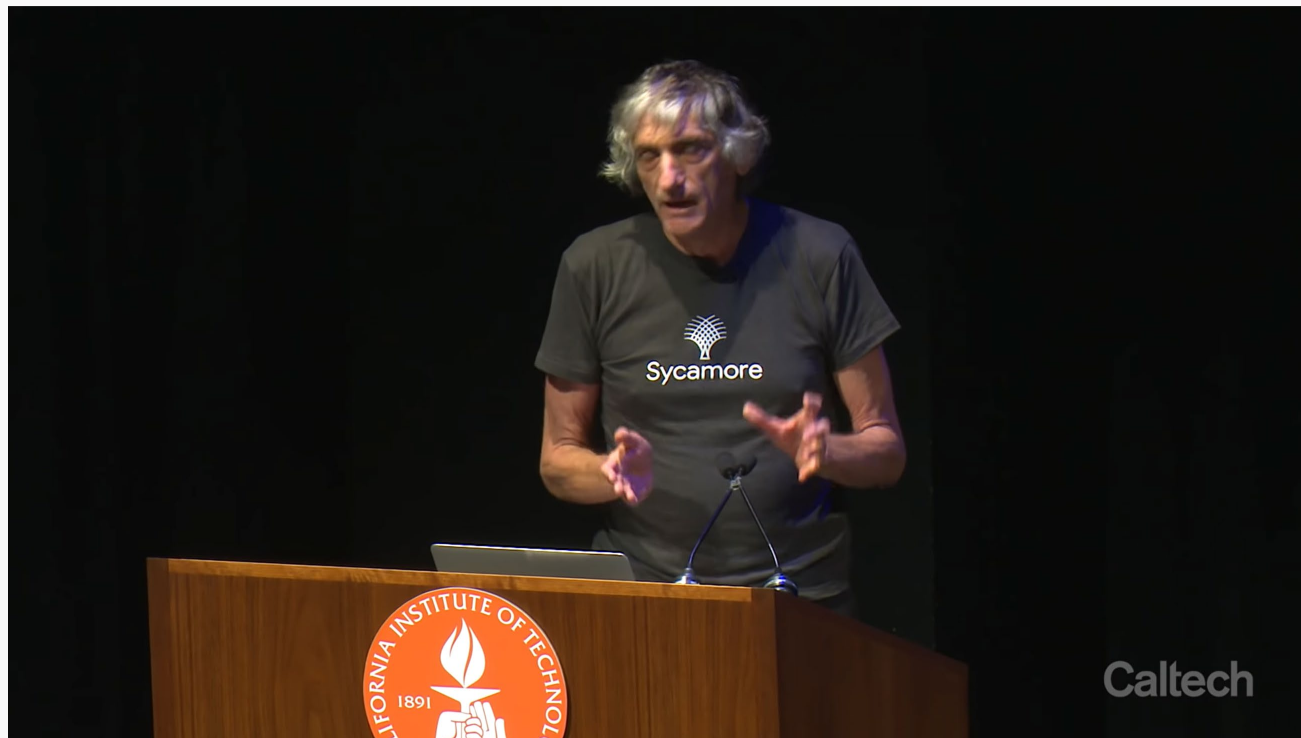

For **Google**, it was a historic announcement: a declaration that it had won the race to achieve “quantum supremacy” - the moment that a sophisticated
